Sustain the Success

COSMOS-CERTIFIED ORGANIC ANTI-BLEMISH COMPLEX

ENRICHED FORMULATION WITH HERBS TO HELP REMOVE SKIN BLEMISHES

Licorice Root Extract
Glycyrrhiza glabra root extract

PRODUCT DESCRIPTION

Licorice (*Glycyrrhiza glabra*) Root, Rosahip (*Rosa canina*) Fruit, St. John's Wort (*Hypericum perforatum*), Myrtle (*Myrtus communis*) Leaves are dried, ground, extracted with solvent and concentrated by evaporation. Concentrated extracts are prepared in a mixture of glycerin and preservatives and are filtered cleanly after mixing for a while. The filtered extracts are complexed by considering certain ratios.

ORGANIC PRODUCTION

BENEFITS

It acts against skin blemishes, acne scars and other skin imperfections. It targets acne and pimples on the skin with the active ingredients it contains. It prevents the formation of acne, reduces the appearance of existing acne and blackheads. It reduces the appearance of blemishes on the skin and evens out the skin tone. It helps to achieve a brighter skin by targeting redness and spots especially after acne. The anti-inflammatory components contained in the complex reduce inflammation in the skin and relieve redness. In this way, it helps the skin to gain a calmer and more relaxed appearance. It provides the skin's natural oil balance and regulates excessive oil production. It reduces the roughness of the skin, tightens the pores and makes the skin look cleaner, healthier and fresher.

Organic Glycerine

Sodium Benzoate

Potassium Sorbate

Benzyl Alcohol

Dehydroacetic Acid

St. John's Wort (*Hypericum perforatum*) Extract journey to Anti-Blemish Complex

The use of St. John's Wort dates back to ancient times. In ancient Greek and Roman times, St. John's Wort was used to accelerate wound healing, reduce inflammation and treat skin blemishes and problems. Hippocrates and Dioscorides, the ancient medical scholars, stated that the use of St. John's Wort is effective in skin treatment.

Extracts from the root of the licorice plant are known for their anti-inflammatory properties and their effect on reducing blemishes on the skin.

Packed with antioxidants, rosehip fruit extracts have long been used for beauty and skin care, with the ability to promote skin rejuvenation, even out skin tone, and reduce the appearance of blemishes.

Myrtle leaf is a plant known for its antiseptic and antimicrobial properties. It has the properties of reducing bacteria on the skin, cleaning the pores and preventing the formation of acne. We present to you the Anti-Blemish complex produced by the Greenext team, based on the beneficial effects of St. John's Wort and other plants that support it with its harmonious properties.

St. John's Wort Extract
Hypericum perforatum extract

ORGANIC CREAM FORMULA SAMPLE

INCI NAME	%
Aqua	40-50

SUCCESS CHAIN™

Created to ensure the sustainable success of all stakeholders.

Greenext offers its natural herbal raw materials, which have successfully passed the quality and certification process and standardized for different sectors, to its customers in the domestic and international markets. **Greenext**, which manufactures in its factory in Torbalı, Izmir, works for the success of all stakeholders in the ecosystem and provides an end-to-end sustainable success chain.

This is called **Success Chain™**

Success Chain™ is based on sustainable success. Solid long-term relationships are built between stakeholders. Focuses on the collective success of the chain, not the success of individual stakeholders. Enables end-to-end adaptation and knowledge transfer.

CONTRACTED FARMERS

The first link in our chain of success;

Trust-oriented, traceable and auditable products that start with the production of our contracted farmers constitute the first link in the Chain of Success. Thanks to **Greenext**, farmers who want to keep plant quality and yield at the highest level can grow good crops and continue to maximize their commercial earnings. In this way, they achieve sustainable success. If you would like to be a part of **Greenext's** chain of success, you can contact us by filling out the contract farmer application form on our website.

NATURE AND ANIMALS

The source of our sustainable success is the power of nature;

While ensuring that the ingredients of plants are preserved in the products we offer, we do not neglect respect for nature and animals. When farming, we work to ensure that the habitats of animals are not harmed and we pay special attention to ensure that they are not used in R&D activities. We make it our mission to always protect nature and animals, and we are inspired by the sustainability of nature when designing processes. In this way, we make the power of nature the source of our sustainable success.

CUSTOMERS

Commercial partnership turns into sustainable success;

The herbal extract needed is determined through interviews with R&D Managers and SME Bosses. Greenext quickly adapts to conditions with the simplicity and agility of its processes. In addition to his expertise, it contributes to the processes with his agile personality. Thus, commercial partnership turns into sustainable success.

GREENEXT EMPLOYEES

In our view, development is the key to sustainable success;

Greenext employees work primarily for the sustainable success of stakeholders. They want to feel valued, be happy with their work and always want to improve their careers. **Greenext** always listens to its employees' wishes and prioritizes their happiness and motivation. It takes actions to support both their personal and professional development. Thus, making development the key to sustainable success.

ACADEMICIANS

The strong link between academia and industry;

We have always valued the contributions of scientists who want to create added value first for science and then for the development of the sector with their academic studies. At **Greenext**, we bring scientists into the holistic ecosystem and accelerate them by providing them with resources. In this way, we create a strong link between academia and industry.

END USER

Meeting the expectations of the end user enables the success of all stakeholders;

The last link in the process starting from the seed is the end user. They buy and use successful products made from standardized raw materials. The motivation of the end-user is to achieve effective positive results linked to the purpose of purchasing the product. **Greenext** sees its value as more than just the supply of extracts. It provides innovation and technologies that will benefit its partners' end products. In this way, meeting the expectations of the end user enables the sustainable success of **Greenext** customers.
